

Seminar IV: What is Existentialism? Professional, and Phenomenology of Mind.

By Shomit Sirohi

I. What we Profess.

I profess to be a revolutionary, then I add the anti-philosophy of praxis, to be an aspect of a contradiction, principal, and non-principal even secondary as further principal. Like that philosophy is bound to be an intra-philosophical act, which then determines the conjuncture, aligns and passes the line. Now we are in the line of victory and this is the Paulinian Apostles who will liberate us with the law, the law is finally to liberate the people.

I profess therefore a drama, and dramaturgy and dramatism.

I am wearing a suit, I wear the suit in winter, and I sit at the table and argue the case out.

II. Existence as Authentic Stylistics - the Swerve is finally on Le Tiempes ou Destruction

I finally am walking out in the streets, the demonstration is on in Paris, we are carrying a banner in Farsi, Urdu and Arabic, I call this unity.

In the black protests in America, we join the frontline, and this then is the act or l'acte of the philosopher. To be as well, a descriptive intellectual or the specific intellectual.

To lines for the intellectual -

- I. Be A Intellectual
- II. Engage with the Frontline in some sense.
- III. Understand the act of discourse, language, even Farsi and finally speak in politics.
- IV. Finally "genealogy", or episteme to be constructed as a simple act of discourse I call jazz style futures. We want the future to be aligned to the black people. We profess, the description.

III. I am Performing the Jazz Style Intellectual

I am standing in a performance, and raising my hands in circles and following the tonal worlds of jazz music, free black people. I call this the rights based approach to the struggle of the poorest. I call this jazz time and temporality.

IV. Now Meditation

A Quran is justice, a Bible is Prophet Elijah's words, and the Torah is truth. Let us then force with these logics on the law - I want a forcing on the law. I want the whole movement to be led by the law leader - Follow Ambedkar. It works because we force.
